

# Innovative RNA:

From  
basic discoveries  
to future medicine

14th  
Berlin Summer Meeting  
18 June 2021

Organizing Committee:

Emmanuelle Charpentier  
Max Planck Unit for the Science of Pathogens

Markus Landthaler  
BIMSB, MDC

Nikolaus Rajewsky  
BIMSB, MDC

Jörg Vogel  
HIRI Würzburg

Speakers:

David Liu  
Harvard University, Cambridge, MA, USA

Mano Manoharan  
Alnylam Pharmaceuticals, Cambridge, MA, USA

Jennifer Petter  
Arrakis Therapeutics, Waltham, MA, USA

Thomas Hermann  
University of California, San Diego, CA, USA

Matthew Disney  
Scripps Research, Jupiter, FL, USA

RNA editing, siRNA/antisense, mRNA vaccines, RNA modification & enzymes,  
RNA structures as drug targets, RNA nanodevices & -technology, RNA in extremophiles
